PROFILE

Passionate about web development and aspiring to build innovative web applications, I am currently focused on learning and honing my skills in Python and Django to create proficient web apps. I am open to internship opportunities to gain hands-on experience in the field and am eager to connect with developers and industry experts.

SKILLS

- Web Design
- Python programming
- Django
- Familier with HTML, CSS and JS
- Git Vesion Control
- Django Rest Api

EDUCATION

BACHELOR OF COMPUTER ENGINEERING

Nepal College of Information Technology

2022 - 2025

PROJECTS

E-COMMERCE SITE

- Developed a functional e-commerce website using Django, encompassing frontend and backend technologies.
- Implemented robust database management using Django's ORM, defining data models and relationships.
- Ensured secure user authentication and authorization through Django's built-in system.
- Created a streamlined shopping cart, allowing users to add, update, and remove products with session persistence.
- Utilized Git for version control, enabling effective collaboration and tracking of project changes.
- Desinged Restful API for the site

BLOG SITE

- Developed a functional blogging website using Django, encompassing frontend and backend technologies.
- Implemented a commenting system, allowing users to interact with blog posts by adding and viewing comments
- Integrated and managed the database using Django's ORM, defining models for blog posts, comments, and user profiles to ensure efficient data storage.
